

MOBILE HEAT 7

Meet the **MobileHeat 7**. This professional cordless hot air blower is used in a wide range of sectors: plastic, construction, foil welding, crimping cable stockings, signalling foils, bumpers, etc. The temperature range (9 steps from 150-550°C) makes it possible to weld plastics, do repairs, bend materials, make all kinds of connections, overlap plates, dry non-flammable paints and varnishes, defrost, ...

This hot air blower reaches 350°C in just 4 seconds!

No external power required and therefore ideal for short repairs in e.g.

- Roofing
- Confined spaces

This hot air blower doesn't need to blow cold to cool down like all other models.

MobileHeat 7 includes:

- Ergonomic handvat
- Air filter
- Analog temperature setting in 9 steps
- Rechargeable battery 18V 8Ah AMPShare (compatible with 18V Bosch AMPShare battery system)
- AMPShare Battery Charger
- A transport case

TECHNICAL DATA

		MobileHeat 7
Materials		TPO, PVC, PE, PP, EPDM, Bitumen
Usable welding wire		see welding jaw
Nutrition		18V Accu 8Ah Ampshare
Output		1000 W
Hot Air Temperature		150-550 °C
Air supply		Integrated
Air supply	l/min	200
Noise level	DbA	< 70 dB
Dimensions	L x W x H	385 x 115 x 89 mm
Weight	Kg	1,635 kg
