

# ROLLERS

**ROLLER 355**

**ROLLER 1000**

**ROLLER 1000 HD**

These tube rollers are essential for supporting pipes while they are being welded. The roller minimizes pipe friction and tensile force, regardless of site conditions. They are easy to use and lightweight. Consequently, portable and easy to assemble and disassemble. The rollers were aligned at an angle so that the tube can be easily moved, even with welds on it.

## TECHNICAL DATA

		<b>ROLLER 355</b>	<b>ROLLER 1000</b>	<b>ROLLER 1000 HD</b>
Diameter range		0 - 355 mm	225-1000mm	200 - 1000 mm
Dimensions	W x B x H	360 x 220 x 200 mm	1040x600x320mm	930 x 550 x 395 mm
Weight	kg	6 kg	27 kg	50 kg
Suitable for thin-walled pipes		Yes	Yes	Yes
Suitable for thick-walled pipes		Yes	Up to 630mm	Yes
