

STYLO

STYLO

The **STYLO** is part of the **FLOW LINE** range. This range is used for a wide range of sectors, plastic, construction, foil shafts, shrinkage of cable stockings, signaling foils, bumpers etc... Due to an accurate hot airflowrate (max. temp. 700°C) it is possible to weld plastic, do repairs, bend materials, make all kinds of connections, overlap plates, dry non-flammable paints and lacquers, defrost, ...

The **STYLO** model is equipped with a thermoregulator and is very light and versatile in use. The machine works with external compressed air supply. These features make the **STYLO** very compact and convenient.

The **STYLO** comes standard with a round nozzle of 5mm.

TECHNICAL DATA

		STYLO
Materials		HDPE, PP, PVDF
Usable welding wire		see welding shoes
Power supply		230V - 1~
Rated power	W	1500 W
Hot Air Temperature		20 - 700 °C
Air supply	including	No
Air supply	l/min	80 - 250 l/min
Sound level	DbA	-
Dimensions	L x W x H	610 x 300 x 470 mm
Weight	Kg	0.4 kg

MACHINE

97200300 STYLO - (230V - 1~) 1500 W (Blower excluded)

OPTIONS

67204215	Flat Nozzle 20mm 15°
67204002	Flat Nozzle 20mm
