

SIGMA 630 PRO

The **SIGMA 630 PRO** is an electric band saw machine for the workshop. This machine can saw HDPE, PP, PVDF and PVC. The **SIGMA 630 PRO** was developed to make angle views with a wide range (-30° to 67.5°). Both the preparation and the sawing phase itself are extremely simple and safe to carry out.

The machine contains:

- A machine body incl. band saw
- Special guides so that the machine can easily be moved back and forth.
- A control panel at a safe distance from the sawing zone, where the operator can **automatically** enter/exit the saw and adjust the cutting speed.
- Special auxiliary means that reduce the vibration on the saw blade; and thereby also reduce normal maintenance.
- An attachment to be able to cut tees.

TECHNICAL DATA

		SIGMA 630 PRO
Cutting range		90 - 655 mm
Materials		HDPE, PP, PVDF, PVC
Power supply		400 V 3F+N+PE
Total power consumption	W	2200 W
Corner range	°	-30° / 67,5°
Length shortest branch	Mm	-
Sawing method		Automatic
Dimensions	L x W x H	4340 x 3460 x 2650 mm
Weight	Kg	925 kg

MACHINE

98480240 SIGMA 630 "PRO" (400V - 3~)

OPTIONS

84468480 KIT for PP-Fiberglass Pipes (upper & Lower Bearing guide + 1 saw blade)

81198490 Pipe Support Table

80338902 Suction nozzle discharge sawdust

98850100 autotr.2,5kva vin208-220-240-440-460-480

SPARE PARTS

32750000 Rubber Cover Flywheel Ø 400

74468520 Saw Blade

74468540 Saw Blade for Pipe PP with Glass fiber load
