SOCKETS & SPIGOTS

Deze lasdoorns en -moffen zijn nodig voor de moflas verbinding van kunststof buizen en fittingen. Ze worden steeds per set verkocht (M+F).

Zij zijn ontworpen volgens de DVS norm, waarvoor er twee versies zijn voor normale rechte lassen, type "A" en "B", verschillend in grootte/lasdiepte.

Zadelmoffen en spies zijn dan weer verschillend per fabricaat.
