DELTA 200 M

This manual welder **DELTA 20 0M** welds pipes with a diameter of up **to 200 mm.** The main features are the limited weight, the minimum dimensions and the versatility. The locking system of the clamps helps the user to apply the necessary welding force.

The **DELTA 200 M** contains :

- Machine frame with two clamps
- a pull-out electric surface planer with safety switch
- a removable heating plate (with an independent thermometer to measure the actual working temperature) and insulating cover
- an electronic thermoregulator "Digital Dragon" with display
