

PIPE SUPPORT

With this practical tool, the tube can be locked. This allows the operator to quickly and precisely perform all the operations leading up to the welding cycle (cutting, pickling, scraping, etc.)

The special structure of this support makes it possible to set different angles of inclination and heights. The locking is secure and fast via a ratchet beltsystem.

TECHNICAL DATA

		PIPE SUPPORT
Diameter range	∅	40 - 400 mm
Dimensions during transport	L x W x H	870 x 365 x 785 mm
Highest size	L x W x H	1100 x 365 x 660 mm
Lowest size	L x W x H	630 x 365 x 760 mm
Weight	Kg	15 kg
