

# UNIVERSAL ALIGNER 63

This professional tool is essential to keep pipes aligned during electro welding. The "UNIVERSAL ALIGNER 63" is almost entirely made of a special alloy and has a centrally adjustable connection to form 45° and 90° angles. It has 4 self-centering clamps that do not require adapters. It is possible to remove 1 part of the shaft, and 1 clamp, to be able to weld tees.

This unit includes:

- 4-terminal aligner
- clamping key
- transport bag

## TECHNICAL DATA

		UNIVERSAL ALIGNER 63
Diameter range	∅	20 - 63 mm
Max. dimensions 2 axles	L x W x H	600 x 160 x 116 mm
Max. dimensions 3 axis	L x W x H	-
Weight 2-axle	Kg	3.9 kg
Weight 3-axle	Kg	-
