ALFA 400 MANUAL

Workshop welding machine, designed to produce segment fittings such as bends, tees, cross pieces and Y pieces **up to 400mm,** with the help of special clamps.

The machine contains:

- A machine with 2 clamps, one of which is controlled by a hydraulic system; incl top cylinder and toolbox.
- A manual hydraulic control panel to carry out the weld
- A flat planer to flatten the ends of the tube/fitting; with safety microswitch.
- A PTFE-coated welding mirror
- Left and right bend clamps Ø 400 mm with steel inserts from Ø 90 to 355 mm

MACHINES

92650543	ALFA 400 M V3 (230V - 1~)
92650534	ALFA 400 M V3 (400V - 3~)

OPTIONS

98000300	Data-Logger "THE INSPECTOR" - (230V - 1~) with battery charger and transport bag
82196211	Facer Disk adapted to PVC -Pipe
87355945	Inserts 90 – 355 (for 1 clamp)
81388008	Inspector Connection Cables (A400M)
85255674	Right and Left Wyes Clamps Ø 315mm + SET of Inserts 90 - 280mm
85295674	Tees / Crosses Clamp Ø 315mm + SET of Inserts 90 - 280mm
84362683	Thin Clamp 400mm Left
84362682	Thin Clamp 400mm Right
80403400	Tool for Flange Necks

SPARE PARTS

84462653	SET of Blades for Milling Cutter - PP Fiberglass Pipes
