

DELTA DRAGON CNC 250

Stui classes can be done fully-automatically using the Delta Dragon CNC system. This eliminates any risk of errors by the operator.

It is available in two versions:

- **SA** with manual extraction of the heating plate
- **FA** with integrated mechanical extraction of the heating plate.

The machine can withstand the most extreme working conditions on site. Particular attention was paid to the connections, the plugs are of the military type.

An easy-to-use software and control panel make it possible to view the most commonly used welding standards (ISO, GIS, DVS and others). By selecting one of the standards and tube diameter/SDR, all welding parameters (pressure, time, temperature) are calculated automatically. If the chosen welding cycle is not included in the above-mentioned standards, it is possible to manually enter all welding parameters (diameter, SDR, material type, welding time and welding pressure,...). This can easily be done by going into the "outside standard" mode. In both cases, the machine is able to automatically manage all phases of the welding cycle, including milling and heating control.

At the end of the welding cycle, all data is stored in the built-in memory with storage capacity up to 4000 records. Serial ports allow the operator to connect the control box to a portable serial printer (for obtaining a report immediately) or to a PC. The device is also equipped with GPS and a USB port for PDF welding reports and upgrades.

MACHINES

91065695	DELTA DRAGON 250 CNC FA V3 (230V - 1~)
91065687	DELTA DRAGON 250 CNC SA V2 (230V - 1~)

OPTIONS

87295134	Complete SET of Inserts Ø75-225mm
87292740	Inserts Ø 75mm - S/L
87293000	Inserts Ø 90mm - S/L
87293320	Inserts Ø 110mm - S/L
87293560	Inserts Ø 125mm - S/L
87293820	Inserts Ø 140mm - S/L
87294100	Inserts Ø 160mm - S/L
87294330	Inserts Ø 180mm - S/L
87294650	Inserts Ø 200mm - S/L
87294900	Inserts Ø 225mm - S/L
84391052	Printer Kit
84306908	Scanner Bar Code Reader
80402451	Tool for Flange Necks
71261070	Wooden Case for Inserts

SPARE PARTS

84461050	SET of Blades for Milling Cutter (2pcs)
84461051	SET of Blades for Milling Cutter - for PP - (2pcs)
